**ULTIMATE ONE STOP SHOP, LINE 204 REDUCES MOTOR HOME AND
PRODUCTION TRAILER DIVISION IN FAVOR OF NEW EVENTS DIVISION AND
EXPANDED STUDIO SPACE.**

***Expanded Focus Keeps Line 204 at the Top of the Production Supply, Production
Communications and Event Resources Market.***

Los Angeles, CA – March 15, 2010 - Line 204, LA's "Ultimate One Stop Shop" for production supplies, communications, portable restrooms, location services, studios, expendables, and production office space has announced a planned reduction of their production trailer and motor home inventory and the immediate sale of said inventory to **Quixote Studios**.

Line 204 will be maintaining a **small core fleet** of motor home rentals that includes Two 40-foot Production Trailers and One 8-room Honey Wagon, but will shift their newly freed resources to their recently launched **Events Division**, working on the architectural plans for their new 10 thousand square foot **Production Stage** and expanding their **Portable Restroom** inventory.

Line 204's **Events Division** establishes the company as an even greater production and event resource powerhouse and is a full-service division geared toward events of all sizes - including production based wrap parties, launch parties, promotional events, concerts and personal events such as weddings and charity galas.

According to Line 204 President and Founder, **Alton Butler**, "The reduction of our motor home division is a great move for Line 204. It frees up the manpower and resources we need to aggressively expand our Events line, while maintaining the strong customer service of our core business and our Production Supplies, Communications and Studio Space foundation."

Butler also added that, "Quixote Studios has a great history as a motor home and production trailer rental company and I look forward to their successful expansion of their environmentally responsible, "green" fleet."

Line 204 is a full-service production supply and production services company that has been meeting production needs since 1997. Their main offices and rental warehouse are located at 1034 N. Seward St., Hollywood, CA 90038 with their available office and studio rentals just across the street. Inquiries and bookings can be made at (323) 960-0113.
